# Motiv's All-Electric EPIC Chassis

# Commercial EVs Are Best Suited For

## Local delivery of goods and people

- Applications with a fixed daily route – eliminates range anxiety
- Routes that have lots of starts and stops for power regeneration
- Vehicles that are parked in a depot at night – accessible and predictable charging

# Real World Feedback

## From Riders

- Smooth Ride (no jerky transmission)
- Quiet (easy to talk)
- No noxious fumes

## From Drivers

- No more fueling stops
- Easy one pedal driving
- Fewer driver checks

## From Fleet Managers

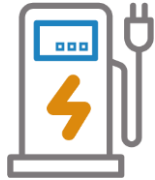

- Less maintenance
- Lower operating cost
- Over-the-air-updates add new features

# Key Challenges With EV Fleet Implementation

- Navigating Subsidy Landscape

- Securing Charging Infrastructure

- Operations Buy-In

- Driver Training

- Maintenance Training

# MOTIV POWERED

EPIC All-Electric Chassis for Class 4 - 6 Applications
